Date: March 7, 2012

FIELD ACTIVITY

Water Supply (Gerald Heston)

- The delivery of water continues.
-

Water Sampling (Gerald Heston)

- The Site Team has not yet heard back from the resident whose sampling was cancelled yesterday regarding rescheduling. One residence is scheduled to be sampled with splits on March 8, 2012. There are currently four (4) outstanding residences that we are still attempting to schedule. Of these four, one will not be back in the area before April.
- After tomorrow, sampling operations will be suspended while the analytical data is being received, reviewed and collated. EPA continues to review data submitted by Cabot in response to an information request.
